March Ferguson
"As a previous Tyler Heart Ball chairperson and current Go Red for Women Co-Chair, I’ve had the opportunity to meet so many people in our community who, like me and my family, have lived with, or lost a loved one to heart disease. Heart Ball is an opportunity for individuals to have fun and help the AHA reach their education, prevention and outreach goals."

Mary LaFrancois
UT Health East Texas
"Heart Disease has been in my family and as I am on my own health journey it is important for me to help others. It is so much fun to be part of a great event like Heart Ball that teaches and helps people who need it, and to dress like a princess one day a year."

Casey Bevel
Dairy Queens of Tyler, Inc.
"Heart disease is the leading cause of death in America. This is why I said yes to supporting the AHA and serving on the Executive Leadership Team. Join us at Heart Ball to help us fight heart disease & stroke in our community."
